

Muse team looking for Mobile Website feedback

Good day all,

The Muse team is looking into Mobile Websites and we'd like to hear from you about these topics:

01. When you are asked to design a site, what are you asked to design?

- Just desktop site
- Just mobile site
- Both desktop & mobile site

02. Can you provide a URL of a mobile site you'd like to design using Muse.

If you could please respond with your comments/feedback & url that would really help us out.

Thank you!

Sung Park

Product Manager
